Timothy Oluwatobi Ojebiyi

Third-Year Computer Science Student | AI Enthusiast | Aspiring AI/
Software Engineer | Actively Seeking Graduate programs
Filton, England, United Kingdom

Summary

At Nomensa, our team focused on enhancing user experiences through accessibility. As a Computer Science student at UWE Bristol, I've been immersed in software development and databases, strengthening my analytical and problem-solving abilities.

This blend of academic rigour and practical application defines my approach: to seek intersections where theoretical knowledge transforms into impactful solutions consistently. My journey is driven by a commitment to excellence and fostering inclusive technology that addresses real-world challenges.

Experience

Nomensa
